

Energyautarc Region with renewable Energy, Vision goes Reality
Ryla Seminar Multidistrict 1910/1920
28 - 30. March 2008, Graz-Austria

WHAT ARE ROTARY YOUTH LEADERSHIP AWARDS?

Rotary Youth Leadership Awards (RYLA) are intensive training programs for youth ages 18 to 30. Talented young people attend a seminar, camp, or workshop, generally three to ten days in length, organized by Rotarians at the club, multiclub, district, or multidistrict level. Often all expenses are paid by participating Rotary clubs.

Officially adopted by Rotary International (RI) in 1971, the RYLA program enables young people to debate issues of professional responsibility and human relations, improve leadership and communication skills, learn about businesses or institutions, and meet Rotarians, while having fun and making friends. For members of the New Generations, RYLA provides the opportunity to refine skills and explore pertinent topics with their peers and elders; for Rotarians, RYLA offers the chance to help develop leaders, share valuable expertise, and bridge the gap between generations.

GOALS

All RYLA programs share the following objectives:

- To demonstrate further Rotary respect and concern for youth
- To encourage and assist selected youth leaders and potential leaders in responsible and effective voluntary youth leadership by providing them with a training experience
- To encourage continued and stronger leadership of youth by youth
- To publicly recognize the high qualities of many young people who are rendering service to their communities as youth leaders

Energyautarc Region with renewable Energy, Vision goes Reality

Energy is the basis of all activities and processes, biological and technical. The Oststeiermark has sufficient resources and technical capabilities to the total needed energy - heat, electricity and fuel - to provide for the autonomous region. Sustainable energy use and regional value-added, an ambitious road to a future of energy. We will show you with our Seminar the way how we will reach this goal and visit objects to see how far we are.

Organized from Multidistrict 1910/1920, Rotary Club Feldbach, Rotary Club Weiz, Rotaract Club Graz and University Graz

The Seminar will be run by Horst Fickel, born 1963 in Graz and work in Feldbach. 20 Years Research and Teaching, 12 years business experience at Siemens AG, 15 years of business experience in his own companies, 15 years Project Management and Consulting for Buildings Systems. 15 years experience and specialized in renewable Energy

WHY ORGANIZE A RYLA?

RYLA was created because Rotarians believe in the potential of youth and the importance of developing and investing in youth leadership. The recognition of young peoples' potential plays a central role in improving a Rotary club's image in the community and facilitating relationships between young people and adults.

RYLA gives awardees an opportunity to:

- Develop leadership skills
- Increase self-confidence
- Gain exposure to a variety of issues and people
- Make new friends
- Obtain career information and skills
- Meet community leaders and mentors

RYLA participants are also exposed to values that Rotarians deem essential for those who hold leadership roles: ethical behavior, integrity of character, and a commitment to community service. Some of the same strengths that give Rotary its distinct image also make RYLA unique among programs oriented toward youth:

- Rotary's strong emphasis on ethics and commitment to the community is an integral part of any RYLA event.
- Rotary is an international organization with a worldwide perspective.
- Rotary's commitment to youth does not end with RYLA. Interact, Rotaract, Youth Exchange, Ambassadorial Scholarships, and Group Study Exchange can continue the development of young leaders who have been through a RYLA program.
- Rotarians represent an immense pool of talent. Individual club members will have organizational expertise to arrange RYLA events, recruiting skills to select the appropriate participants, and the ability to connect with young people.
- As community leaders, Rotarians have valuable contacts and can call upon the expertise of non-Rotarians who can serve as speakers, facilitators, and staff at RYLA events. Rotarians also have access to resources, such as funding and facilities, which might otherwise be unavailable to a youth program.

Ryla Seminar 28.3 -30.3.2008, Graz

Energyautarc Region with renewable Energy, Vision goes Reality

Fee 130,- € per person, without Hotel fee 85,- €

Included: Hotel (2 or 3-bed), Breakfast (Sa, So), Bus for Seminar, Bus for Excursion, breaks, lunch, Dinner on Friday, Seminar fee, Welcome Cocktail, Sightseeing Graz

not included: Drinks on Friday, Dinner at Saturday, arrival and departure to Graz

Registration: ryla@rotary-feldbach.com or fax: +43 820 555 852263

Program:

28.3.2008

| | |
|------------------|---|
| till 16:00h | Arrival of participants and registration (Cafe RONDO) |
| 16:00h - 16:30 h | Welcoming with cocktail |
| 16:30h - 18:00 h | Personal Introduction of the participants Lecture and presentation |
| 18:00h – 19:00h | Sightseeing „ Building RONDO “ with the Architect |
| 19:30 h | Dinner |

29.3.2008

| | |
|-----------------|--|
| 08:30 h | Start Seminar at Uni Graz Lectures and presentations, Break, Lunch, Break |
| 18:30h | End Seminar |
| 18:30h - 20:00h | Architecture Sightseeing Graz (lets take a walk) |

or free time with Roract Club Graz members

30.3.2008

| | |
|-----------|--|
| 08:00h | Excursion by bus from the Hotel „ Lets see the vison goes reality “ |
| 14:00h | End of Seminar (we will also stop at the airport and Railway) |
| Departure | |

Friday

28.3.2008

Welcome President Rotaract Club Graz

BM DDI Wolfgang Trink:
04:30 PM to 04:40 PM

President Rotaract Club 2007/2008 Graz. Studying Civil Engineering / Industrial Engineering at the Technical University of Graz, closing 2005, followed by the construction management major activities high and industrial construction, concrete constructive. Since 2007 engineer at the Mandlbauer Construction Ltd., Graz. wolfgang.trink@gmx.at

Energievision of Rotary International

Günter Ertler
04:40 PM to 05:00 PM

Pastgovernor - District 1910, Rotary Foundation Alumni Coordinator Zone 14 east, Chairman Rotary Foundation Committee - District 1910, Chairman Community Service - District 1910, District-Trainer D 1910, Inter Country Committee Chair Österreich - Israel, President of Rotary Club Feldbach; ertler.quenter@rotary-feldbach.com

„The complexity of ethical decisions regarding the ecological problems – can a spiritual approach be helpful?”

Prof. Dr. Angel Hans Ferdinand
05:00 PM to 06:00 PM

Prof. Dr. Hans-Ferdinand Angel, is professor for religious education Catholic-Theological Faculty and actually the dean of the Faculty. He has specialized on questions dealing the matter „science and religion“. Member of Rotary Club Graz ferdinand.angel@uni-graz.at

Sightseeing Building Rondo

Arch. D.I. Markus Pernthaler
06:00 PM to 07:00 PM

One of the famous Grazer Architect. Since 1990 studied in Graz and Tokyo. The project Rondo pursues an ambitious urban vision, and the reality is not only aesthetically trends new ground, but also offers their home users, office and business operators extraordinary qualities. The Rondo is ecological and cost accented with alternative energy systems in the effect of a passive house. **Austrian Solar Price winner** architekt@pernthaler.at

Saturday

29.3.2008

“Energy Region East Styria“ East Styria’s program to regional Renewable Energy and Energy Efficiency

*Ing. Christian Luttenberger
08:30 AM to 09:30 AM*

As a co-worker of the regional-management East-Styria, he coordinates the program "Energy-region East-Styria" since 2004. Christian Luttenberger works since 1998 in the field of renewable energy and energy-efficiency in close cooperation with companies, communities and regions. Also in his private company, his main focus lies in the participation-work, in the accompaniment and coordination of common processes with the goal of future-capable regional energy supplies. office@lутtenberger.ch

Buildings without Heating Systems

*Ing. Fickel Horst
09:30 AM to 10:15 AM*

The Ryla Seminar will be run by Horst Fickel, born 1963 in Graz and work in Feldbach. 20 Years Research and Teaching, 12 years business experience at Siemens AG, 15 years of business experience in his own companies, 15 years Project Management and Consulting for Buildings Systems. 15 years experience and specialized in renewable Energy. Managing director of the engineering offices Fickel, Kirchberg in the Raab. Consulter for Building Rondo. **Austrian Solar Price winner.** Member of Rotary Club Feldbach horst@fickel.at

Break

10:15 AM to 10:45 AM

Modern Buildings - Energy suppliers

*Arch. D.I. Erwin Kaltenegger
10:45 AM to 12:00 PM*

Is an Architect in Passail and has been 16 years of sustained, Energy optimized construction and renovation of buildings. **Austrian Solar Price winner and European Solar price winner** Member of Rotary Club Weiz office@dike.at

Lunch

12:00 PM to 13:30 PM

Photovoltaics - energy of the future

*Ing. Gerhard Korpitsch
01:30 PM to 02:15 PM*

Our services range from planning, development, production and distribution of grid-connecting Photovoltaic system solutions to autonomous solar power plants. We are a complete system department store and partner of the retail and its specialists who operate in all fields of Photovoltaic, from the simple one-family house to architectural special solutions including contracting models and insurance for your solar power station. Managing director of the KW Solartechnik, Graz. **Austrian Solar Price winner and winner of the European Solar Award** office@kw-solar.at

Biomass – Belongs to the future

The power of innovation and intensive research make KWB a leader in the technology of biomass heating systems throughout Europe. KWB is focused entirely on innovation. 23 of the 182 employees work in the biggest private biomass research centre in Europe. KWB is an internationally recognised research partner and cooperates with renowned institutions such as the Fraunhofer Institute and the German Aerospace Center. Managing Director Erwin Stubenschrott is thoroughly passionate about his commitment to the ecological utilisation of energy. Next to his work as CEO of KWB he is running an ecological farm in St. Margarethen/Raab. Member of Rotary Club Weiz erwin.stubenschrott@kwb.at. Dr. Helmut Maschnig is responsible for business development and international sales at KWB helmut.matschniq@kwb.at

Ing. Erwin Stubenschrott
02:15 PM to 03:00PM

Dr. Helmut Matschnig
03:00 PM to 03:30 PM

Break

Agriculture - the foundation of a sustainable supply of society

The agricultural sector is in a sustainable energy economy and will be a key sector, this approach must be developed. As a (main) manager of the resource area, this sector has a central role in the use of sustainable energy resource is solar energy. A sustainable energy supply for the company, therefore, depends decisively away from the extent to which this sector itself to the criteria of sustainable energy supply is sufficient. A sustainable energy supply for the company is without a sustainable energy supply to the agriculture sector unthinkable. office@arge-kreislaufwirtschaften.com

Bakk. Birgit Birnstingl-Gottinger
03:30 PM to 04:00 PM

Politics Role in the Changing Energy System Group Work and Discussions

Energy expert, green energy consultant and lobbyist. Born 1958, university graduate of law (Graz, 1984) and business (Vienna, 1991); since 1995 in the renewables (RES) sector as marketing and sales manager at SONNENZEITUNG, Vienna, Austria's leading RES review; sales manager at SONNENKRAFT, European market leader of solar thermal panels; project manager at Fri-El Green Power (Bolzano, Italy), hydro and wind plant developer and operator; marketing and sales manager at OEKOSTROM AG, Vienna, largest Austrian green power supplier and trader. Member of the board of ESD (European Association for Sustainable Development) and "Initiative Civil Society", member of appropriate singular RES pressure groups. office@renewable.at

Architecture Sightseeing Graz (lets take a walk) or and free time with Rotaract Graz

06:30 PM to 08:00 PM

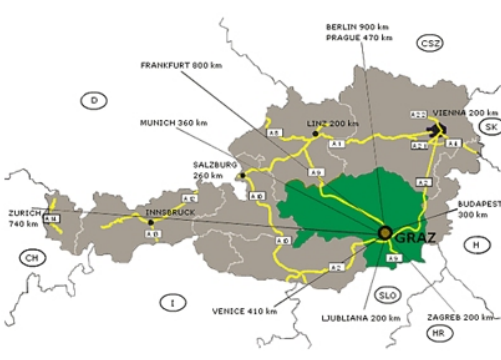

RYLA Seminar Graz 28.3. - 30.3.2008 GETTING THERE

car:
 skip From North / Vienna and East: on the A2 Südautobahn
 From North and West: on the A9 Phymautobahn
 From South / Klagenfurt and Italy: on the A2 autobahn
 From South / Maribor: on the A9 autobahn

Train (Hauptbahnhof):
 Intercity trains connect Graz with all bigger towns of Austria.
 Direct train connections to some neighboring countries. Main
 changing stations: Salzburg and Bischofshofen coming from
 the North and Villach coming from the South.

Plane:
 Graz airport, less than 6 miles south of the city centre.
 Scheduled flights operate to Graz from Dusseldorf, Frankfurt,
 Munich, Stuttgart, Vienna, Linz, Innsbruck, Zurich, London,
 Hannover, Gothenburg, Friedrichshafen. Nearby Airports
 include Maribor Airport, Klagenfurt Airport and a little further
 away Vienna International Airport.
 Getting to the city is easy and inexpensive. The airport railway
 is located 300 metres from the passenger terminal. Trains leave
 to Graz Hauptbahnhof (main station) roughly every hour (EUR 1.70).
 As an alternative, buses leave from directly in front of the passenger
 terminal. The bus will take you first to Jakominiplatz and then further
 to the Hauptbahnhof (EUR 1.70). Of course you can also take a taxi
 (EUR 20 to the city centre).
